

# TSHWANE UNIVERSITY OF TECHNOLOGY'S FACULTY OF INFORMATION AND COMMUNICATION TECHNOLOGY

## PRESENTS

# TVH Tshwane Varsity Hackathon 2021

### What is it?

Tshwane University of Technology's (TUT) 3rd annual creating marathon or popularly known as a Hackathon, is meant to challenge Information and Communication Technology (ICT) students across learning institutions in Tshwane Metros to demonstrate their skills in software development, cloud computing and agile practices while competing to address industry and community problems through technology.

### How will the competition work?

On the day of the Hackathon, participants will be requested to come up with solutions to certain real-life problems by using technology. Thereafter, the marketers of each team will need to pitch the solutions to the judges.

Each team will be allocated a mentor/coach to work with during the duration of the hackathon.

### Who can participate?

Students from universities in Pretoria (UP, TUT, UNISA & SMU)

### How will it take place this year?

The 2021 version will be hosted virtually as part of the support to curb the spread of COVID-19.

All participants including hackers, mentors and the industry players can register here:

<https://forms.gle/TKUGxbEALM9xNoMQ8>

### Dates:

16 September: Workshop about training members on the technology to be used in the hackathon and discuss the Intellectual Property and commissioning of the system.

17 - 18 September - Hacking overnight.

19 September - Presentations and Judging.

### Prizes

Cash, gifts, vouchers and training.
